

TOPIC: ask and answer questions about school and education

Instructor directions: Your SKYPE student has indicated that she wishes to practice asking and answering questions about **school and education**. Please initiate the conversation for this lesson. Please remember that students will be taking notes during this session. If they appear to not understand or have misunderstood, then encourage them to use appropriate conversation strategies (e.g. *“Could you repeat that please?”* *“How do you spell that?”*, etc)

Ask about:

	NOTES
Name of school	Two questions forms for asking about this have been given to the student. If they ask both questions, point out the meaning is the same.
Location of school	
Major area of study	
Study body (student numbers)	Students will probably not know the exactly number. A ballpark figure will suffice.
Types of faculties and departments	
Transportation form to get to school	
Time it takes to commute to school	
Degree sought	Students are unlikely to know the different types of degrees- Bachelor, Masters, etc

* Please note: When a student asks you about your education, they will first ask you if you are a student or not. If you are no longer a student, please cooperate and talk about your past education and correct the student if they use the present form to ask you when they should be using the past form.
