

**PLEASE READ THE INSTRUCTIONS:**

- 1. Greet the student.**
- 2. Do a short introduction.**
- 3. Inform the student that you'll have a speaking test/speaking exercise.**
- 4. Send the link:**

<https://webliomaterials.files.wordpress.com/2016/02/speaking-test-middle-school-3.pdf>

**Energy**

- 5. Let the student read the short passage below for 20-30 seconds silently.**
- 6. After the given time above, ask the student to read the passage aloud.**

These days, saving energy is becoming more important. Many car companies produce electric cars to save gas. To save electricity, many people turn lights off when they don't need them. For the environment, we need to think about how we should use energy.

**A****B**

7. Let the student know that you'll be asking him/her 5 questions about the short reading material and photos above.
8. For the first three questions, the student may look at the Speaking Test material.
9. Before you proceed to the 4<sup>th</sup> question, you may inform your student to close the material so he/she can focus on the discussion.
10. Give a short feedback to the student (positive and give points for improvement).
11. If there's still time, you may do a free conversation related to the topic featured in this speaking test. :)
12. Thank you!

**QUESTIONS:**

1. According to the passage, what do car companies do to save gas?
2. Look at Picture A. Tell me about the things that you see in Picture A.
3. Look at the girl in Picture B. What is she doing?

**[[Close the speaking test material, please.]]**

4. Do you think we can save more energy in the future? Why or why not?
5. Would you be bored if there was no electricity?
