GPS

GPS stands for Global Positioning System. This technology has revolutionized the way people travel. Drivers for example feel more confident as this technology has made going around cities safer and easier. It has become uncomplicated for tourists driving around a city to reach their destinations. They drive through streets and highways without the fuss of having to read maps or notes while driving. Drivers also get to plan their trips in greater detail as they'd know where to stop for gas, restroom breaks and snacks. GPS has spared a lot of tourists the trouble of getting lost in unknown cities!

QUESTIONS:
